Fashionable Silks for Summer

A Boston dry goods merchant, on his way to Jamestown, was passing through our store last week, and in commenting upon the store in general and our Silk Department in particular, said that he'd never seen a more up-to-date Silk Department nor a better assortment of Silks as well displayed.

To get the best of the new Silks come to Miller & Rhoads.

Amoskeag and Lancaster Brands, Regular Price 10c.

Twenty-five hundred yards of these well-known Gingham were sold to us as "seconds," but there is practically no defects in them that you will notice. The mill price to-day is 7 1/2c a yard. We'll put them on sale to-morrow morning at the same price, 7 1/2c.

It's a bargain you shouldn't miss in these days of advancing prices for cottons.

A New Collar: The "Swasticka," 25c

The very latest conceit in Women's Embroidered Linen Collars, and on sale only at Miller & Rhoads. The embroidered design is taken from an old Indian, "Luck Charm."

Notice how very odd the design is—much used also this spring in jewelry. The collar is an excellent imitation of a \$3 hand-made pattern.

Pictures: Big Cut in Prices

We've moved our Picture Department into the basement of the new Broad Street store. In moving, a few of the frames became clipped. We've taken these pictures, together with some others whose frames have become slightly tarnished, and marked prices down for quick selling.

Colored Photos, in black or gilt frames, were \$3.50 to \$5, now \$1.

Hand-Colored Photographs and Water Colors, were \$5 and \$5.50, now \$1.50.

Carbons and Hand-Colored Photographs, in gilt or oak frames, were \$5, now \$2.08.

Sheets and Pillow Cases At Old Prices.

Which means about twenty-five per cent. less than the prices of the same qualities if purchased at this time from the mills.

Our stock, bought months ago, is rapidly disappearing—some sizes and numbers have been entirely closed out; but we still have a good assortment at less than mill cost.

Provide now for your future as well as immediate needs. (Basement.)
